

# Live Better.

Choose eco-friendly wood flooring

**ITLAS**

**Live Better.**

# Respects the rhythm of nature

**the wood used comes from controlled forests which are managed in a correct and responsible way.**

The company is committed to safeguarding the environment through the application and maintenance over time of an Environmental Management System which complies with UNI EN ISO 14001 requirements. The certification has been obtained in 2013.

**Live Better.**

# Nature, matter, man...

**The factory is not composed of one single area, but of many units that make up an articulated and complex structure, where each building is dedicated to a specific function of the production process.**

The Cordignano headquarters are in fact made up of a series of warehouses spread out over a contained portion of the area, each with its distinct identity: from the sawmill to the first cutting station; from the finishing to the painting areas; from the handcrafting to the

woodworking stations; and finally to the space where special and custom designs are created. Not to mention the new office building (which also houses customer service), and the wonderful company showroom with adjoining conference room.

**From cutting down the trees to manual working, from finishing to creation of custom designs: technology and craftsmanship come together in Itlas plants.**

# **Itlas woodenfloors Totally Italian Quality**

In 2009 Tavole del Piave, Assi del Consiglio and Legni del Doge obtained the “100% Made in Italy Certificate” issued by Istituto per la Tutela dei Produttori Italiani (Institute for the Safeguard of Italian Manufacturers), guaranteeing that the wood floors they produce are entirely made in Italy, with quality, first-choice natural materials, created on models which are exclusively designed by the company and using traditional Italian artisan carving workmanship. In 2014 the institute have issued the certification to all Itlas products.

The exclusivity of Itlas projects is guaranteed by the issue of the “100% Made in Italy” certification, synonym of original Italian high quality.

Nature is put at first place in Itlas mission. To choose a certified wood mean choose nature. Because wood is a renewable raw material. Because a wood is recyclable. Because the utilisation of wood contributes to reduce CO2 emissions in the atmosphere.

The Tavole del Piave and Assi del Consiglio multi-layered wooden planks, used for flooring, false ceiling and cladding purpose, are patented as industrial invention according to the certificate n°0001399111, issued by the Italian Patent and Copyright Office of the Ministry of Economic Development.

Itlas floors are in A+ CLASS, following the Decree N° 2011-321 of 23 March 2011 of the French Ministry of Ecology, Sustainable Development, Transportation and Housing.

**ITLAS**

**Tavole del Piave is a large prefinished three-layers planking, designed for floors, dropped ceilings and claddings.**

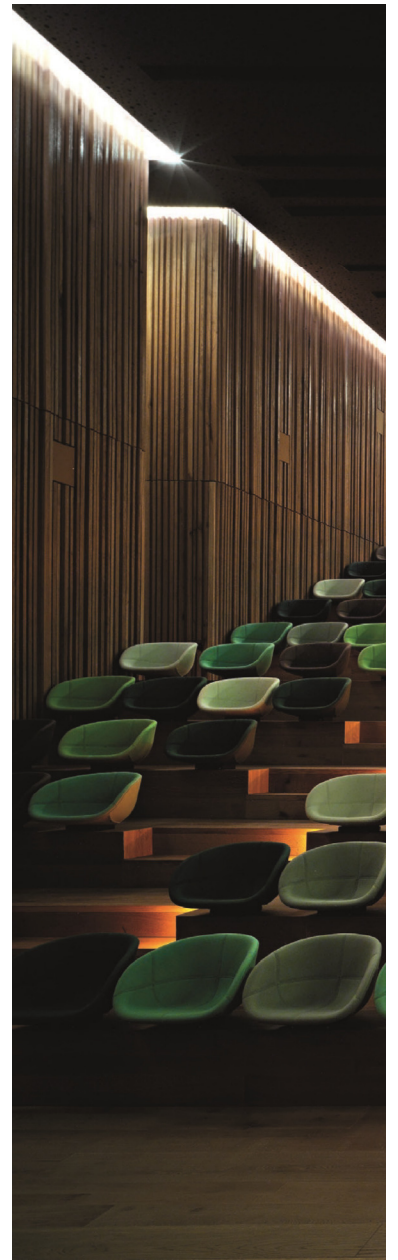

This project originated from the cult for tradition, love for wood and predilection for artisan work: a prestigious planking with which Itlas has rediscovered the floors of

yore, reintroducing them with the same value and emotions. The visible layer is in noble wood, while the balancing counter-face is made of fir hardwood and the core is birch plywood, with a minimum of five layers, positioned orthogonally to the other layers: this is all for extreme stability.

# Tavole del Piave

Tavole del Piave  
Cantina Antinori - Italy  
Archea Studio Architects

The profiling is made of sawtooth tapping on the four sides, with bevelled angles to highlight the plank's characteristics.

**Tavole del Piave** are produced in different wood species and finishes.

In these latest years Itlas has been carrying on a high-level cooperation with world renowned designers and architects: Marco Casamonti, Archea studio, Doriana and Massimiliano Fuksas, Claudio Silvestrin, Mario Botta, Adolfo Natalini and Pietro Carlo Pellegrini.

**ITALIAN  
DESIGN**

# Tavole del Piave Construction

## 1° LAYER

5 mm ( $\pm 0,5$ ) in noble wood

*Superficial finishing resistant thanks to the superficial structural manufacturing and the further water coloring and protecting finishing cycle, the floor guarantees optimal performance.*

## 2° LAYER

Central support in birch plywood with vinyl gluing in D3 class. The combination of this 2 elements guarantees the best performance in terms of dimensional stability, on heated floors also of large dimension.

## 3° LAYER

Balancing counterface in raw Fir Hardwood with perpendicular fiber relative to the visible side.

*Diagonal woodcuts  
Enhance the longitudinal flexibility of the support to perfectly adjust to the screed and improve the dimensional stability.*

*Chamfer edges on the sides highlight the dimensional characteristics of the plank*

*Brushed Surface  
Beveled with Tongue and Groove on 4 sides  
Water Based Glue  
Water Based Varnish*

STRUTTURA BREVETTATA

All Tavole del Piave product line is fit both for glued and floating installation.

## AVAILABLE SIZES

OUR LARGE SIZED BOARDS ENHANCE THE WOOD FROM LARGE TREES AND SPECIAL CUTS.

Tavole del Piave maintains a thickness of 5/8" also on larger widths (up to 15 1/3"). A characteristic that makes them suitable for installation on heated screeds.

### Extra Small

Thickness	5/8"	16 mm
Width	3 5/8"	140 mm
Lenght	2' to 6'	800 to 3800 mm

### Small

Thickness	5/8"	16 mm
Width	5 1/2"	140 mm
Lenght	2' to 13'	800 to 3800 mm

### Medium

Thickness	5/8"	16 mm
Width	7 2/7"	185 mm
Lenght	2' to 13'	800 to 3800 mm

### Large

Thickness	5/8"	16 mm
Width	9"	230 mm
Lenght	2' to 13'	800 to 3800 mm

### Large One

Thickness	5/8"	16 mm
Width	11 3/7"	290 mm
Lenght	2' to 13'	800 to 3800 mm

### Extreme

Thickness	5/8"	16 mm
Width	15 1/3"	390 mm
Lenght	2' to 13'	800 to 3800 mm

Live Better.

# Tavole del Piave Finishing

**Stable** because it uses a multi-layered birch support specifically created to avoid dynamic tension and guarantee maximum stability over time.

**Ecological** because it uses varnishes and adhesives that respect the strictest European norms.

**Precise** because it's endowed with hundreds of peripheral interlocking joints that guarantee perfect smoothness. This is also tested with computerized infra-red lasers.

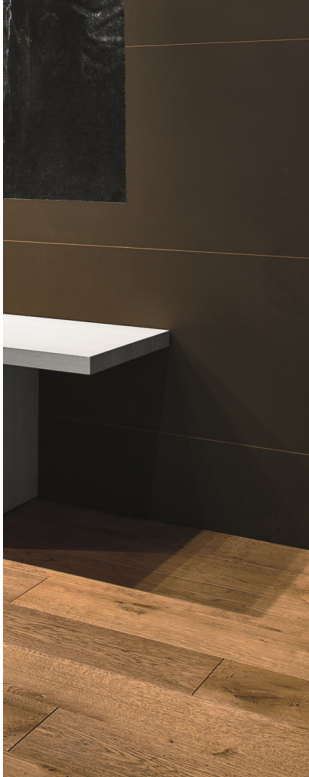

**Technological** since it comes from a highly controlled production process, from the treatment of the support layer to the varnishing of the final product.

**Resistant** thanks to superficial structure work and to the subsequent pigmentation cycle and water-based protective finish, the floor guarantees efficiency for modern foot traffic.

**Safe** because it is produced according to the most demanding protection and safety standards, as demonstrated by the awarded certification.

**Itlas floors are designed by expert designers following craftsmanship techniques and modern technologies. All the projects are protected from counterfeiting by trademark copyright.**

# ITLAS CERTIFICATIONS AND MARKINGS

## CE MARKING

All Itlas' products (Assi del Cansiglio, Tavole del Piave, Legni del Doge) fulfill the requirements of European laws regarding CE marking for wooden floorings.

## FSC-COC CERTIFICATION FOREST STEWARDSHIP COUNCIL® Forest Stewardship Council®

Certify that the raw material utilised comes from forests managed following the FSC® standards.

## 100% MADE IN ITALY CERTIFICATION

The Institute for the Protection of Italian Producers proves that Itlas products are certified and fulfill the requirements of System IT01 - 100% Original Italian Quality. This certification guarantees that our floorings are made completely in Italy, produced with natural, top-quality and selected materials, manufactured according to the company's exclusive models, adopting the typical Italian craftsmanship techniques.

## PEFC™ CERTIFICATION PROGRAMME FOR ENDORSEMENT OF FOREST CERTIFICATION

Programme for Endorsement of Forest Certification™  
Certify that the utilised raw material comes from forests managed according to PEFC™ standards

## FIRE RETARDANT CERTIFICATION

This certifies that Itlas obtained the ratification for class Cfl-S1, the class that proves the highest resistance to fire for wooden floorings, according to the standards of EN14342 on CE marking.

## FORMALDEHYDE

It certifies that all our products fully respect the limits of class E1, the most restrictive among the classes included in European law currently in force (UNI EN 14342).

## F 4 STARS

For several Itlas floorings the tests made with method JIS A 1460:2001 demonstrate formaldehyde emissions that comply to Japanese standards (which are more restrictive than European ones).

## ISO 14001

It certifies the commitment to environmental safeguard through the application of a environmental management system in compliance to requirements included in the UNI EN ISO 14001.

## FRENCH LABEL A+

Itlas floors are in A+ CLASS, following the Decree N° 2011-321 of 23 March 2011 of the French Ministry of Ecology, Sustainable Development, Transportation and Housing.

## PATENTED 3 LAYERS WOODEN PLANKS

The Tavole del Piave and Assi del Cansiglio multi-layered wooden planks, used for flooring, false ceiling and cladding purpose, are patented as industrial invention according to the certificate n°0001399111, issued by the Italian Patent and Copyright Office of the Ministry of Economic Development.
